Attn: Heather Gilbert

Sorry it took a while to get this to you, but I needed time to adjust to what had happened.

Surgey went well but had after problems!

Things were worse than I had planned on. The incision was from my ^(EAR) jawbone to almost my collarbone, but I'm doing well now!

I'll call you later!

Heather;

This is just a note to let you know that the angiogram - screen I took saved my life.

It found a problem in my neck that I didn't know I had!

After the screen I went to my Doctor the next day for more tests. The test also showed that your screen was 100% right.

I had surgery 6 weeks ago and found out due to damage (old) that the artery was more damaged than I thought.

Thanks to the screen I went back to work 2 weeks ago with no problems.

Without the screen & surgery I most likely would of — !

Thanks again
